

RiZZ

Summer

It's a warm summer evening, and the garden party you're having with your friends is in full swing. The garden doors of the kitchen and living room are open. Guests are walking in and out. RiZZ helps keep your home clean and the floor intact.

RiZZ can be used everywhere

A doormat by RiZZ makes your entrance both practical and inviting. Also for the back door, this is precisely where you bring sand in with you on your shoes from the garden. The various designs and sizes will certainly suit your front door, garden door or conservatory.

RiZZ is weather resistant and equipped with anti-slip strips.

What makes RiZZ outdoor unique

A hitherto unknown reduction in the entry of unwanted waste material. A well thought out design combining functionality and aesthetics; Relatively no maintenance required thanks to the open brush profile and a discreet entrance that is surprisingly unobtrusive. Quality and

RiZZ MADE TO MEASURE

Distinctive minimalism

You are a minimalist. You choose for modest, rigid design, and, wherever possible, natural materials. A safe haven in a hectic world, RiZZ made to measure assists maintenance and keeps the floor intact.

RiZZ made to measure can be used everywhere

A RiZZ made to measure doormat makes your entrance practical and inviting. This applies to homes but businesses as well, which have high levels of walking traffic. The mat is custom made to your specifications. For best results, the mat should be countersunk into your patio, deck or mat well. The modest black of the made to measure mat suits any entrance.

The mat can be easily rolled up for maintenance. User friendliness is fundamental.

RiZZ MADE TO MEASURE TECHNICAL DATA

- Maximum dimensions :
In the width 2000 mm
In the run 2500 mm.
- Weight :
17 kg/m²

• RiZZ made to measure :

- Brush profile: High impact-resistant PVC
- Seal: High frequency monofilament 5 Nw/mm
- Strip brush:
Fibre: UV-proof Nylon;
Strip steel: RVS 304;
Thread: RVS 304

durability due to the use of only the best materials and 7 decades of experience in brush technology. A RiZZ doormat saves 80 percent waste material.

RiZZ outdoor works

The resistant non-wearing nylon brush even cleans profiled soles. The dirt falls through the open construction. The mat is thus almost never full. Now and then a bucket of water and maybe some scrubbing with the brush will keep the mat clean. The dirt can then easily be swept from the pavement afterwards.
